Of the Annual Session of the State Editorial Association.

## THEY RETURNED FROM PITTSBURGH

Excursion Yesterday Morning - A Special Meeting on Board the Train, at Which Resolutions are Passed. Most of the Editors Returned to Their Homes During the Day.

The members of the West Virginia Editorial Association who went to Pittsburgh Thursday on the special excursion over the Baltimore & Onio road, arranged by President Stuart F. Rood. returned to the city yesterday morning at 10 o'clock, the trip from Smoketown having been made since 7:25 a. m. The newspaper men were loud in their expressions of pleasure and gratitude for the elegant treatment they received at the hands of the Pittsburgh press boys, A special meeting of the association was held on board the train, in the special car occupied by the members, and the following resolutions adopted with a

Resolved, That the thanks of the asso-Resolved, That the thanks of the asso-ciation are due and hereby tendered the Pittsburgh Press Club for their un-bounded hospitality and numerous courtesies in providing for our enter-talment, and through whose influence many other courtesies were extended to the members while guests of the club. Resolved, That the thanks of the asso-ciation are tendered to the Clitzens

Resolved, That the thanks of the association are tendered to the Citizens Traction Company, of Pittaburgh, the Pittaburgh ball club, Messrs. Norton and Honderson, of the Duquene theater, and the actor, J. K. Murray, and to Mr. Samuel S. Brown, proprietor of the Monongahela House, whose cordialities leave with each of us pleasant memories of our excursion to Pittaburgh.

burgh.

The returning pilgrims did net long remain in Wheeling, most of them taking the afternoon trains to their homes, on the Ohio River and Baltimore & Ohio roads. Several returned home directly from Pittaburgh, via Fairmont and Cumberland.

and Cumberland.

The make-up of the editorial association's legislative committee as announced in the INTLIGENCER has been added to. The new member is Mr. James F. Thompson, of the Martinsburg World. The other members of the committee are, Charles H. Taney, chairman, C. B. Hart, A. B. White, R. E. Horner and President Reed. The scope of work for this important committee is large, and it may be the means of decided improvements in state laws regarding newspapers. It is proposed to recommend to the legislature the enactment of a law providing for the publication in one or more papers in each county, of a synopsis of the new laws made by the legislators.

Mr. Andrew Price, editor of the Mar-lington Times, out in Pocahontas coun-ty enjoys the distinction, if such it may be called, of being from the innermost recesses of "Away Back," the exact location of which has heretofors been doudtful. This gentleman actually rode sixty miles on horseback before he reached a railroad or other evidences, so called, of civilization. His ride was reached a railroad or other evidences, so called, of civilization. His ride was from his home town, the county sent of Pocahontas, to Beverly in Randolph county, over a country which can be called "Roughest West Virginia." Probably no other state on the sunny side of the Mississippi can furnish so retired a community.

The word "politics" and all concern-The word "politics" and all concerning it was barred out during the stay of the editorial association here and on the Pittsburgh excursion, but an INTELLIGENCER man succeeded in getting this, from a well-known Fourth district man, who is as cute as they make 'em anywhere: "We are going to have a hot contest in the Shoestring this fall. If Warren Miller and "Farmer" Capehart get the nominations for Congress respectively on the Republican and Demspectively on the Republican and Dem-ocratic tickets, it could not be much warmer. If Judge McCluer gets the nomination we will beat the Demmies sure. With Mr. Capohartit will be dif-ferent. All this talk about the "Farm-er" losing strength in the district is bosh, and he is a great deal cuter a poli-tician than most people give him credit. His latest move for popularity has been to send some of his blooded horses to various points in the district, where spectively on the Republican and Demvarious points in the district, where they will be kept during the campaign among the farmers."

World's Columbian Exposition Will be of value to the world by illustrating the improvements in the mechanical arts and eminent physicians will tellyou that the progress in medicinal agents, has been of equal importance, and as a strengthening laxative that Syrup of Figs is far in ad-vance of all others.

The withdrawal of John H. Fimple, of Carroll county, from the congressional contest leaves that county solid for Judgo J. H. Taylor, who served one term in the Congress when that county was in another district than the present one. He is a fine-looking, dignified man, who makes a favorable impression, but he will hardly be the nominee unless there should become a very decided deadlock in the convention, in which event he might be named in the belief that he could be turned down sooner than some of the others. Capt. Fimple, who withdrewfrom the contest, was a warm friend of Col. Poorman, and is the man to whom the colonel gave an appointment in the land effice at Washington that was tendered to him after President Harrison's inauguration. His withdrawal at this stage of the contest cuts off the hope that was well founded for at least a portion of that delegation coming to the colonel in the event he developed the strength his friends hope for in the convention.

The Baltimore & Ohio Railroad Company for several days has been holding about four hundred cars of coal in the yards here. They received orders some days ago to hold all and at once began spiking the switches after a coal train was in. Thursday night they began to let some of it go out over the Cleveland, Lorain & Wheeling to the lake port, but they keep from three hundred to four hundred cars there about all the time. The object is to keep on hands a supply of coal in the event of a disagreement that will prolong the strike and cause a general scarcity of coal. They are only letting go train loads from here as others come in to fill the yard up.

It seems that the act passed March 22, 1892, authorizing the people of Martin's Ferry to vote upon the proposition of building an electric light plant, is as good now as it was then and if it is a new act will not be necessary nor will the committee have to go to Columbus. The matter will be looked up to-day. The vote was taken seventeen days before the time required by law and on those grounds an injunction was gotten out. It should have been advertised thirty days.
